## THE SCHEME OF SHELTER FOR URBAN HOMELESS (SUH)

### 1. BACKGROUND:

The National Urban Housing & Habitat Policy (NUHHP), 2007 aims at promoting sustainable development of habitat in the country with a view to ensuring equitable supply of land, shelter and services at affordable prices to all sections of the society. However, the most vulnerable of these are the urban homeless.

The Urban homeless persons contribute to the economy of the cities and thus the nation as cheap labour in the informal sector; yet they live with no shelter or social security protection. The urban homeless survive with many challenges like no access to elementary public services such as health, education, food, water and sanitation.

National Urban Livelihoods Mission (NULM) aims at providing permanent shelter equipped with essential services to the urban homeless in a phased manner under the Scheme of Shelter for Urban Homeless (SUH).

### 2. **OBJECTIVE**:

The objectives of the Shelter for Urban Homeless (SUH) component of NULM scheme are to:

- 2.1. Ensure availability and access of the urban homeless population to permanent shelters including the basic infrastructure facilities like water supply, sanitation, safety and security;
- 2.2. Cater to the needs of especially vulnerable segments of the urban homeless like the dependent children, aged, disabled, mentally ill and recovering gravely ill, by creating special sections within homeless shelters and provisioning special service linkages for them.
- 2.3. Provide access to various entitlements, viz. social security pensions, PDS, ICDS, identity, financial inclusion, education, affordable housing etc. for homeless populations.
- 2.4. Formulate structures and framework of engagement for development, management and monitoring of shelters and ensuring basic services to homeless persons, by state and civil society organisations including homeless collectives.

### National Urban Livelihoods Mission

### 3. NORMS AND TYPES OF SHELTERS:

- 3.1. The shelters should be permanent all-weather shelters for the urban homeless. For every one lakh urban population, provisions should be made for permanent community shelters for a minimum of one hundred persons. Depending upon local conditions each shelter could cater to 50 or 100 persons.
- 3.2. The scheme will be implemented in all district headquarter towns and other towns with population of one lakh or more as per the Census of 2011. However, priority may be given to cities with population above one million and cities/towns of special social, historical or tourist importance identified by the Government of India/ State Government. In addition, taking into account the requirement of shelters, other towns may be allowed in exceptional cases on the request of the State.
- 3.3. Some of these shelters may cater to the most vulnerable groups within the homeless populations such as (a) single women and their dependent minor children, (b) aged, (c) infirm, (d) disabled, (e) mentally challenged etc. Actual break-up would depend on local particularities, and size of the city and total numbers of shelters. States/ULBs may consider setting up separate shelters to cater the special needs such as:
  - a) Men shelters: Since the proportion of men among homeless is higher separate shelters for men could be built to primarily cater to single working men.
  - b) Women shelters: Shelters for the exclusive use of women in terms of its location, design, services and support systems, could be designed to cater to the needs of women and their dependent children. In every ULB, no matter how small the populace, at least one such shelter for women would be constructed.
  - c) Family Shelters: For families living on the streets; family shelters may be provided with a special design for privacy, with shared common spaces.
  - d) Special Shelters: Taking into account special needs for segments of homeless persons, such as old persons without care, mentally ill, recovering patients and their families etc. special shelters may be provided.

However, depending on the need, a shelter may cater to working men, women and family with appropriate spaces demarcated for each of the categories.

### NULM Operational Guidelines for Scheme of Shelter for Urban Homeless

### 4. FACILITIES AT THE SHELTERS

The shelters will be permanent, running though out the year; and open round the clock, because many homeless persons find work in the nights. Following facilities/amenities may be provided at the shelters for dignified living:

- a) Well ventilated rooms.
- b) Water arrangements (Potable drinking water and other needs) and sanitation.
- c) Adequate bathing & toilet facilities.
- d) Standard lighting for shelter.
- e) Adequate fire protection measures, as per the norms.
